Perfect Gift IZIHIRWE

Full Stack JavaScript Developer
Kicukiro District, Kigali City, Rwanda

Summary

I'm a full-stack MERN developer with experience in technologies such as React Native, React and NodeJS. I love exploring new technologies and I'm always looking for ways to improve and learn new skills. I enjoy passing on my knowledge to others and helping them have the opportunity to upstart their journey in the tech career. I have managed to publish apps such as PalmEvents. (<https://play.google.com/store/apps/details?id=com.palmevents>).

Experience

PalmKash

Mobile Developer

July 2022 - Present (10 months)

London, England, United Kingdom

Developing the android and ios PalmKashEvents mobile apps that allows event-goers to purchase tickets with their smartphones and publishing it on the Google PlayStore.

Collaborating with the Backend team in testing RESTFUL API endpoints.

Improving on the user experience of the mobile app.

kLab.rw

Software Development Trainer and Team Lead

December 2022 - April 2023 (5 months)

Kigali City, Rwanda

Training Tech Upskills training program participants on web development technologies like HTML, CSS, JavaScript and later teaching them React, React Native and NodeJS frameworks to use in building real world projects and also equipping them with knowledge of tools used in actual job environments like Slack and Trello.

Kitech

Full Stack Developer

October 2022 - April 2023 (7 months)

Kigali City, Rwanda

Worked as a software developer where I used Node.js and React to develop web applications. My role also involved working collaboratively with a team to deploy these applications using continuous integration (CI) practices.

On the Node.js, I worked on the backend portion of the web applications, utilizing the Node.js runtime environment to execute server-side code. This involved developing APIs using MongoDB database as storage.

On the frontend, I used React to build user interfaces, to develop the client-side portion of the application. This involved creating reusable components, managing state, and handling user interactions.

kLab.rw

Tech Upskill Training in Mobile Development

May 2022 - September 2022 (5 months)

Kigali, Kigali City, Rwanda

Gaining top level professional skills in Mobile app development in React Native and using technologies like Redux.

Participating in soft skills classes which equipped me with leadership skills.

Working with my mentor to develop personal mobile app projects that solve real world problems ex: RyaNeza, Reprodoctor.

Education

University of Kigali

Bachelor's degree, Information Technology · (December 2022 - 2025)

Lycee de kigali

High School Diploma, Mathematics, Physics and Computer Science · (January 2018 - July 2021)

Cisco Networking Academy

Cybersecurity and Networking · (October 2021 - August 2023)
